React JS and front-end developer with a passion for building interactive and user-friendly web applications. I would love to be a part of a dynamic organization where learning and growth is a continuous process and to utilize my knowledge in a healthy environment which will help me broaden my innovative skills, and to develop it further for the benefit of the organization as well as for own individual personality.

PROJECTS

🔗 Shreeji Mumbai

- Conceptualized and created a modern and user-friendly website for Shreeji Mumbai, showcasing their swimming pool design and maintenance services..
- Implemented a responsive design to ensure the website looks and functions seamlessly on various devices, enhancing user experience.
- Used React.js, tailwind css, firebase to develop a high-performance and scalable website.

🔗 AnimeHub

- Designed and developed the AnimeHub website to provide a seamless and engaging experience for anime enthusiasts.
- Integrated an external API to fetch anime data, including titles, descriptions, and images, ensuring that the website always offers up-to-date information.
- Prioritized responsive design to ensure the website is accessible and visually appealing on various devices, from desktops to mobile phones.

🔗 themoviedbweb

- Designed and developed the moviedbweb website to provide an immersive and informative experience for movie enthusiasts.
- Implemented intuitive navigation, search functionality, and filtering options, enabling users to effortlessly discover their preferred movies.
- Successfully integrated an external API to fetch movie data, including titles, descriptions, release dates, cast, and images, ensuring that the website consistently delivers the latest and most relevant information.

EXPERIENCE

Designation - Front end web developer intern   May 2022 - August 2022
Andesoft Consulting Pvt. Ltd.
